Topics

The International Forum on Medical Imaging in Asia (IFMIA) is a forum for academic researchers, biomedical scientists, engineers, and clinicians in all Asian countries to exchange new ideas and the latest developments in the medical imaging field. It has been held approximately biyearly since 2007. IFMIA 2021 focuses on all technical and practical aspects of medical imaging.

Topics of interest include, but are not limited to:
- Medical Imaging and Reconstruction Theory (CT, MR, X-ray, US, PET, SPECT, OCT, Biological image, Histological Image, etc.)
- Medical Image Analysis (Segmentation, Registration, Feature extraction, etc.)
- Computational Anatomy and Computational Physiology
- Computer-aided Diagnosis
- Computer-aided Surgery and Therapy (Medical robots, Surgical and Interventional Systems, etc)
- Radiogenomics / Radiomics - Visualization, Interactions, Virtual/Augmented Reality, and Simulations
- Medical Informatics (PACS, IHE, Telemedicine, E-health, etc.)
- Deep Learning in Medical Imaging

Important Dates

- **2020**
  - Aug. 15: Submission of abstract deadline
  - Oct. 15: Notification of acceptance
  - Nov. 30: Submission of camera-ready full paper deadline

Abstract Submission

Submit a 200-300 words text abstract with title and authors by August 15, 2020 via the conference website. The contact author will receive notification of acceptance by e-mail no later than October 15, 2020. Accepted papers will be sorted between oral and poster presentations and assigned a location within the conference schedule. All papers are to be submitted electronically in PDF format.
